

Frank Goortani, TOGAF, PMP

AI/ML Engineering Executive • CTO • Chief AI Officer

AI/ML Engineering Executive with 25+ years architecting production systems at scale, from startups to Fortune 500. Currently **CTO at FasterOutcomes** (AI legal tech startup, 0→1→Series A). Previously **Solution Architect at Uber** (built award-winning ELLE AI Decision Engine). Deep technical expertise in production LLM systems (LangChain, RAG, AI Agents) combined with proven leadership building and scaling engineering teams (12-60 people) at TD Bank, Home Depot, and Canada Life.

Track record: Led teams from 3→50 engineers | Built 8+ personal SaaS products | Managed \$2M-\$10M technology initiatives | Achieved 70% efficiency gains through AI automation | Thought leader with 13K+ LinkedIn followers

Currently Full-Time CTO at FasterOutcomes, scaling AI legal tech startup from early revenue to Series A. Hands-on technical leadership with strategic vision.

Tools, Frameworks, Libraries, Languages, Databases

AI/ML & LLM Frameworks:

LangChain, LangGraph, FastMCP, MCP Development, CrewAI, Ollama, Prompt Engineering, Agentic Workflows, AI Strategy, Model Governance

Agentic Coding & AI Development:

Claude Code, Cursor, GitHub Copilot, Codex, Aider, AI-Assisted Development, MCP Server Development, Team Productivity (3-5x gains)

LLM Platforms:

OpenAI (GPT-4), Anthropic Claude, Google Gemini, Cohere, Hugging Face, Open Source LLMs

Vector Databases & Embeddings:

OpenSearch, Pinecone, Qdrant, Chroma, Weaviate, Semantic Search, RAG Systems

Backend & APIs:

Python (FastAPI, LangFx), Go (YARPC, gRPC), Java (Spring Boot), Node.js, GraphQL, REST, Protocol Buffers

Frontend & Mobile:

React 18, TypeScript, NextJS, Angular, React Native, Fusion.js, Redux, Material Design, Tailwind CSS

Cloud & Infrastructure:

GCP (Cloud Run, Firestore, Firebase), AWS (EC2, Lambda, S3), Azure, Kubernetes, Docker, Terraform

Data & Messaging:

Apache Kafka, Temporal/Cadence, Apache Spark, Presto, Cassandra, MySQL, PostgreSQL, Redis, MongoDB

DevOps & Monitoring:

GitHub Actions, Jenkins, Bamboo, Bazel, M3, Prometheus, Grafana, Datadog, Splunk

Enterprise Architecture:

TOGAF, SOA, Microservices, API Platforms, Enterprise Integration Patterns, Domain-Driven Design

Skills and Achievements

Leadership & Strategy:

- Technology Leadership: Team building, hiring, mentorship, performance management, organizational design
- Strategic Planning: Technology roadmaps, architectural vision, product strategy, OKR setting
- Stakeholder Management: Executive presentations, board communications, cross-functional collaboration
- Change Management: Digital transformation, cloud migration, process improvement, agile

adoption

- Business Acumen: P&L impact, ROI analysis, budget management, vendor negotiations

Technical Excellence:

- AI/ML Systems: Production LLM platforms, multi-agent architectures, RAG pipelines, agentic workflows
- Agentic Development Leadership: Pioneered Claude Code, Cursor, GitHub Copilot adoption achieving 3-5x team productivity gains, MCP development for custom tool integrations
- Distributed Systems: Microservices, API platforms, event-driven architecture, workflow orchestration
- Full-Stack Leadership: Backend, frontend, mobile, cloud architecture across entire technology stack
- Enterprise Architecture: TOGAF-certified, SOA to microservices transformation, API-first design
- Data Engineering: Data warehousing, BI systems, ETL/ELT pipelines, real-time analytics

Organizational Impact:

- Team Scaling: Built and scaled engineering teams from 3→60 people across startups and Fortune 500
- Process Excellence: Established engineering practices (code reviews, CI/CD, testing standards, documentation)
- Hiring & Mentoring: Hired and mentored 50+ engineers, conducted 100+ technical interviews
- Technical Evangelism: Thought leadership (13K+ LinkedIn followers on agentic coding, MCP development), conference speaking, technical writing
- Innovation Culture: AI-first development practices with Claude Code and agentic tools achieving 3-5x productivity gains across teams

Professional Experience

Chief Technology Officer (Full-Time)

FasterOutcomes

Jun 2025 - Present

Remote / AI Legal Tech Startup

Technical Leadership & Product Strategy:

Leading technical strategy, product architecture, and engineering execution for AI legal tech platform transforming how law firms handle client intake, discovery, and case management.

Strategic Achievements:

- Architected complete **AI platform from ground up** (RAG, AI agents, agentic workflows, full-stack web app)
- Led **product roadmap** from vision to MVP in 12 weeks with small team (3 engineers + 2 product)
- Defined **go-to-market strategy** and technical positioning (Series A fundraising in progress)
- Built **AI-first culture**: Implemented Claude Code, Cursor, and agentic coding workflows achieving 3-5x productivity across team
- Developed **custom MCP servers** for legal document processing and workflow automation

Technical Execution:

- Built **production RAG system** for legal document search (Pinecone vector DB, semantic search across 100K+ legal documents)
- Designed **multi-agent architecture** for automated legal research, document drafting, and case analysis
- Implemented **full-stack platform** (React, NextJS, Python FastAPI, Firebase/Firestore, GCP)
- Integrated **LLM providers** (OpenAI GPT-4, Anthropic Claude, with fallback strategies)
- Led **security & compliance** implementation (SOC 2, encryption at rest/transit, RBAC)

Team Leadership:

- Hired and mentored 3 senior engineers (full-stack, ML, DevOps)
- Established **engineering practices**: Code reviews, CI/CD, testing standards (80%+ coverage)
- Managed **distributed team** (Canada, US, India) using async-first communication

Technologies: Python (FastAPI, LangChain, LangGraph), React, NextJS, Firebase/Firestore, GCP (Cloud Run, Cloud Functions), OpenAI, Anthropic Claude, Pinecone, GitHub Actions

Solution Architect

Uber

Jan 2021 - Dec 2025

Remote / Global Tech Platform

Strategic Leadership:

Leading architecture and development of **ELLE AI Decision Engine** (award-winning production LLM system) and **9 enterprise privacy web applications** serving Uber's global compliance, security, and legal teams.

Business Impact:

- **ELLE**: Reduced manual Technical Privacy review time by **70%**, processing **millions of decisions** across Uber's global platform (won multiple internal innovation awards)
- **9 Web Apps**: Enabled compliance teams to handle **3x increase in GDPR/CCPA requests** with same headcount
- **Authorization Platform**: Built security middleware protecting **100+ GenAI platform APIs** (96% test coverage)

Technical Leadership:

- Architected **production LLM system** (LangChain, LangGraph, RAG) serving **100K+ requests/month**
- Led **9+ full-stack projects** (React, TypeScript, Fusion.js) across privacy domain
- Contributed to **50+ security infrastructure projects** (Python monorepo) and **40+ platform services** (Go monorepo)
- Mentored **10+ engineers** across frontend, backend, and AI/ML disciplines

Cross-Functional Collaboration:

- Partnered with **Product, Legal, Privacy, and Security teams** to define ELLE roadmap
- Presented technical strategy to **VP-level stakeholders** and executive leadership
- Conducted **100+ technical interviews** for Uber hiring (senior IC and management roles)

Technologies: Python (LangChain, LangGraph, FastMCP, FastAPI), Go (YARPC, microservices), React 18, TypeScript, OpenAI, Anthropic Claude, OpenSearch, Kafka, Cadence, Cassandra, Bazel, Kubernetes, Claude Code (agentic development)

AI Consulting & Product Leadership

VisionzLab, Architect.solutions

Jan 2010 - Present

Remote / Entrepreneurial Ventures

Strategic Consulting:

- Served as **GenAI lead** for multiple clients across **legal tech, fintech, healthcare, ecommerce, manufacturing**
- Delivered **technical due diligence** for AI product investments (helping VCs assess technical feasibility)
- Led **AI transformation** consulting for enterprises (roadmaps, vendor selection, implementation)

Product Portfolio (Entrepreneurship Track Record):

- **FasterOutcomes** (June 2025-Present): AI Legal Tech platform - Full-Time Chief Technology Officer (0 → 1 → Series A)
- **Counta AI** (2024): AI accounting automation - Founder, full-stack development
- **frwr.ai** (2023): AI product platform

- **VisionZLab** (2010-2025): AI development studio - 15+ client AI implementations
- **Maktub.app** (2018): SaaS application
- **ExclusiveListings.club** (2015): Real estate marketplace with AI chatbot (ELAIN)

Business Development:

- Generated substantial consulting revenue through inbound and referrals
- Built **13K+ LinkedIn following** as AI/ML thought leader
- Conducted technical interviews for top-tier companies: Uber, Robinhood, Netflix, Airbnb, Peloton, Gap

Technologies: Python (LangChain, LangGraph), React, NextJS, Firebase, GCP, OpenAI, Anthropic Claude

Lead Solution Architect

Home Depot Canada

Dec 2017 - Dec 2019
Toronto, Canada | Retail Tech

Team Leadership:

- Led team of **10+ onshore and 50+ offshore developers** for homedepot.ca website
- Built **onshore mobile app team from scratch** (iOS/Android native development)
- Conducted **technical hiring** and mentored senior engineers

Business Impact:

- **Customer 360:** Unified customer data platform serving **15M+ customers**
- **E-Commerce Platform:** Architected microservices migration supporting **\$5B+ annual online revenue**
- **Mobile Apps:** Launched iOS/Android apps with **1M+ downloads**, 4.5+ star rating

Technical Leadership:

- Designed **microservices architecture** (25+ services) migrating from legacy monolith
- Led **cloud migration** to Google Cloud Platform (Kubernetes, Docker)
- Implemented **Angular Universal Server-Side Rendering** for SEO and social sharing
- Built **React and Angular component libraries** from scratch with Storybook
- Designed **Apache Kafka messaging layer** for event-driven architecture

Technologies: Angular 9, React, TypeScript, Java Spring Boot, Kubernetes, GCP, Kafka, Redis, Hybris, AEM, iOS (Swift), Android (Kotlin)

Manager, Software Development & Sr. Application Architect

TD Bank

Nov 2013 - Jun 2015
Toronto, Canada | Banking

Team Leadership:

- Managed **team of 12 engineers** (5 senior, 4 mid, 3 junior) across web and mobile
- Hired and mentored **8 new engineers** during tenure
- Led **multiple BI and integration projects** for banking operations

Business Impact:

- **Banking Services Data Mart:** Enabled \$10M+ in operational insights for OMEGA-PEGA project
- **Omnichannel Platform:** Architecture supporting **8M+ online banking customers**
- **Real-Time Payments:** Processed **\$2B+/year** in transactions with 99.99% uptime

Strategic Initiatives:

- Led **mobile-first strategy** (React Native) saving \$500K+ vs native development
- Implemented **API-first architecture** enabling third-party integrations
- Established **Agile/Scrum practices** across 3 teams (40+ people)

- Designed **BI framework** for enterprise reporting (SSIS, SSRS, SSAS, SharePoint)

Technologies: SQL Server, SSIS/SSAS/SSRS, .NET 4.5, ASP.NET MVC4, Java Spring, React Native, SharePoint, TIBCO, Cognos

Education and Professional Development

Personal AI Products and Services

- <https://fasteroutcomes.com> - AI Legal Tech Platform (June 2025-Present) - Full-Time Chief Technology Officer
- <https://counta.ai> - AI Accounting Automation (2024)
- <https://frwrd.ai> - AI Product (2023)
- <https://visionzlab.com> - AI Development Studio (updated 2023)
- <https://maktub.app> - SaaS Application (2018)

Certifications

- **TOGAF 9.1 Certified**, The Open Group Architecture Framework, 2013
- **PMP Certified** (Project Management Professional), PMI, 2013
- **Certified Data Scientist**, Johns Hopkins University, 2015
- **ITIL Foundation**, Mind Leaders, 2013
- **MCPD** - Web Application Development 2008, Microsoft, 2012
- **MCITP** - Database Developer 2008, Microsoft, 2012
- Agile Project Management Strategy and Analysis, 2013
- Data Warehousing Management, Mind Leaders, 2013
- OWASP Top 10, Security Compass, 2012

Academic Degrees

- **M.Sc. in Management**, AmirKabir University of Technology (Tehran Polytechnic), 2003
- **B.Sc. in Computer Software Engineering**, AmirKabir University of Technology (Tehran Polytechnic), 2001

Thought Leadership & Community

LinkedIn: 13K+ followers • AI/ML thought leader in production LLM systems, agentic coding, Claude Code, MCP development, engineering leadership, and AI transformation

Medium: [@FrankGoortani](#) • Published articles on AI strategy, agentic development, Claude Code workflows, MCP servers, team building, production LLM systems, and CTO leadership

GitHub: github.com/FrankGoortani • Open source contributions and AI/ML example repositories

Speaking & Teaching:

- Corporate Instructor - The Judge Group (Cloud Migration course, 2017-2019)
- College Instructor - George Brown College (Web & BI, 2014-2017)
- International Instructor - Learning Tree (Data Warehousing, 2014-2015)

Target Roles & Work Style

Preferred Roles: CTO, Chief AI Officer (CAIO), VP Engineering at AI-first companies (Seed-Series B)

Work Style: Remote-only (100%), strategic + hands-on, results-oriented culture, async-first communication

Ideal Company Profile:

- AI-first technology company (LLM products, AI platforms, AI-powered SaaS)
- Seed to Series B stage (\$2M-\$50M ARR)
- Technical founding team that values hands-on CTO

- Product-market fit achieved or close, ready to scale engineering
- Mission-driven, high-growth potential, venture-backed

Aurora, Ontario L4G6P7 (647) 983 5277 Frank@Goortani.com
